

Ansus Consulting's

One Day Academy

Creative Thinking

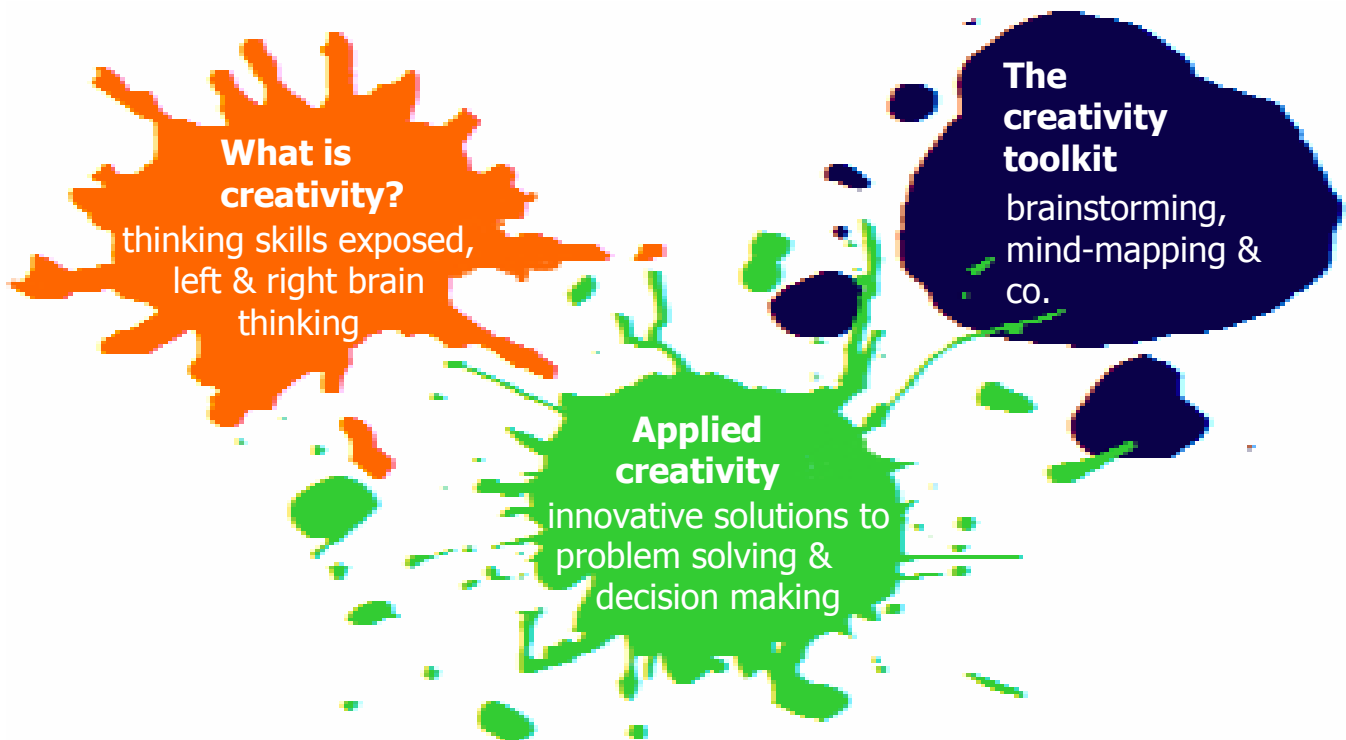

Amazing techniques to boost your career and personal skills

Course overview: Creative thinking is the process of generating quickly new and useful ideas in business, arts, science, home etc. It is a cognitive skill, which stimulates the brain to make new associations and connections in order to aid problem solving and decision making.

Course objectives: You will learn to

- use a toolkit of creative thinking techniques to generate, evaluate and select new ideas
- remove blocks to creativity and to increase your confidence in implementing new ideas
- combine creative and analytical thinking skills

Course content:
